

# OMG SERIES DEMOLITION & MATERIAL HANDLING GRAPPLE

# COUNT ON OKADA.

The OMG Demolition and Material Handling Grapple has earned its reputation by performing in tough applications and continues that tradition with a design strength that is unparalleled in the industry. The proof is in it's ability to have full breakout force of the excavator on a single tine.

Fully versatile, the OMG Series provides performance, production and profits in a wide range of applications and is offered in five different sizes for excavators ranging from 25,000 to 110,000 pounds. And they provide flexibility in mounting as the OMG can be mounted directly on the bucket pins (pin-on) or mounted using a pin-grabbing quick-coupler.

- *Recycling facilities (easily sort and separate material and quickly load crushers or shredders)*
- *Demolition (residential, commercial and industrial demolition is easier and safer)*
- *Land clearing (tree stumps can be extracted quickly)*
- *Reconstruction (no need for cable-and-sling as large, bulky objects are moved easily)*
- *Rock handling (precisely pick and place rip-rap and load shot rock without damaging your haul truck)*

Whether your job calls for demolition, scrap handling, rock handling, log and pipe handling or land clearing, the OMG Demolition and Material Handling Grapple has what it takes to get your job done.

## KEY FEATURES

- *Heavy-duty AR500 material used in the tips and AR400 shells made of high tensile, high alloy, abrasion-resistant material in high wear areas.*
- *Reinforced heavy-duty box tine design for maximum strength.*
- *Large hardened pivot sleeves and bronze bushings.*
- *Adjustable stiff link*
- *Wider curved bucket design produces larger volume of material per load.*
- *Full one-year 2,000 hour warranty (including finger tips).*
